

## RIOT SURVIVORS OCCUPIED STAND IN HERRIN TRIAL

### Point Out Two De- fendants as Ones Who Were in Mob

(By The Associated Press)  
MARION, Ill., Dec. 20.—Peter Hiller and Otis Clark, two of the five defendants on trial charged with murder in connection with the Herring riots were pointed out in court by two of the four survivors who took the witness stand today.

The survivors, who occupied the stand most of the day, were William Cairns, P. J. O'Rourke, Bernard Jones and Robert Officer, the latter a bookkeeper at the strip mine where the riots started which resulted in the death of 20 non-union men. The first three were guards at the mine.

Cairns testified that the 48 men in the mine surrendered under a white flag between 5:30 and 6 o'clock the morning of June 22 and were marched out of the pit with their hands above their heads after being told that they would not be harmed. He said he had seen C. K. McDowell, the crippled superintendent of the mine, led away by Otis Clark, who had a gun, and another man.

"We were marched on until we came to a barbed wire fence," he said, and "some one shouted 'all men with guns line up to right' and then some one else cried, 'now you fellows run.'"

"Then the firing started," he said. "I was wounded and lying beside the fence with two bullets in my body. Cairns said he saw Peter Hiller, come up to another wounded man who was leaning against a tree and fire into his body after shouting: 'you great big—can't we kill you.'"

The witness said he saw another man approach John Shoemaker, assistant superintendent at the mine who was lying wounded in the field and say: "Here's that machine gunner." Cairns declared the speaker then drew a pistol and blew Shoemaker's head off.

**Taken to Hospital**  
The witness said he was picked up and taken to a hospital by Sheriff Thaxton about an hour later.

O'Rourke told of being shot twice at the fence, of fleeing thru the woods until he was recaptured and of pleading victims thru Herring to a cemetery outside the city where all six were shot down in the road.

The witness said he remembered praying for any Christian in the crowd to bring him water and, in the name of his mother for some one to notify her of his fate. He said some one knelt over him and slashed his throat with a pocket knife.

O'Rourke was picked up with seven bullet wounds in his body. Jones testified he had raised a white flag at the mine and was told by the leader of the attackers that those in the mine would be taken safely out of the country. He told of the march from the mine while some one in the crowd shouted "kill them," "hang them," but the others cried: "No we are going to put them on a train and get them out of here. They've had enough already."

He quoted Otis Clark as saying: "We're going thru with this if I shoot them all myself." Jones said that when the firing at the fence started, he leaped over a fence and ran to a train for refuge given by a farmer.

Another witness J. W. Billots of Marion, testified that after the riots he had heard Bert Grace, another of the defendants boast that he had prevented someone from giving one of the wounded men at the cemetery a drink of water.

Donald M. Ewing, a Chicago newspaperman testified last week that Grace had prevented him from giving a drink to one of the wounded.

A. T. Norman, a Herring hardware dealer testified that on the afternoon of June 21, a crowd of men and boys came into his store and got three guns and asked him to charge them to the Herring miners' local. Norman said he refused and asked for names and they gave two and said they wanted the guns in a hurry.

A. A. Mostele, another hardware dealer of Marion, testified that 15 or 20 men came into his store the afternoon of June 21 and seized nine shotguns and told him to charge them to "Herring locals and if he wanted verification to call up Hugh Willis or Will Davis, miners officials."

Robert Herron, chief of police of Herring who, one of the witnesses testified was a spectator of the death march thru the town, announced his resignation today.

## NAVAL OFFICERS CALL ATTENTION TO RIVAL SHIPS

Show That Efficiency of  
British Fleet Greater  
Than Ours

(By The Associated Press)  
WASHINGTON, Dec. 20.—Relative fighting efficiency of British and American battleships particularly at long range were understood today to have been called sharply to the attention of the senate naval committee in consideration of the pending naval appropriation bill.

Naval officers are known to be greatly concerned on the point as the British virtually have completed post war modernization of their 15 inch gun ships and no start on similar work has been made in the American navy.

The effect of the British post-war improvements, it was said today in naval circles, was to give the entire main British fleet a range of 30,000 yards against a maximum of about 20,000 yards for all American battleships but the Tennessee, California, Maryland, Colorado and West Virginia. In addition as permitted under the Washington treaty, the British ships have been equipped with "blister" anti-torpedo construction and their decks armored against airplane bombs and angle fire.

A rough estimate of the cost of modernizing American ships, in the same way, so far as increasing gun elevations and strengthening decks is concerned, is approximately \$60,000,000. In the British program as much as \$4,000,000 is said to have been expended on a single ship.

When naval estimates were under consideration in the budget bureau and later before the house appropriations sub-committee it was said, funds were asked by naval officials for a limited program beginning this year on making over battleships to be retained under the treaty. The items presented called for conversion of coal burning battleships of the 14 inch gun type to oil burners and the installation of five inch anti-aircraft batteries to replace all present three inch guns on the big ships. The items went out both before the budget and in committee but there are indications that more urgent representations are being made to the senate.

Change from coal to oil fuel is of vital importance in widening the effect radius of action of the ships, it was explained by naval officials substitution of the five inch anti-aircraft batteries means using shells with a fifty yard burst, instead of the 25 yard area covered by three inch projectiles. In other words it was said, a "curtain of fire" against aircraft with five inch guns would need one half the number of guns in action to make it effective.

## SHARP TONGUE NETS WOMAN SENTENCE

(By The Associated Press)  
QUINCY, Ill., Dec. 20.—A sharp tongue and an uncontrollable temper sent Mrs. Elizabeth Brown to the workhouse for a year today. She was arraigned in the county court along with her husband on a charge of contributing to the dependency of Brown's two children, a former wife.

Judge Nauert had just placed the couple on probation, but had varied them if he heard any further complaints he would send them down for a year. During the hearing of the case Mrs. Brown was admonished several times for making remarks. On leaving the court room she remarked that as soon as she got out of here she would skip out—that she would never take care of "those brats." The matter was reported to the court, who told her she would have to delay her proposed departure for at least one year. The husband was paroled.

Yesterday Judge Nauert sent a father to the workhouse for a year for neglecting his family.

## FIND WHERE SHOTGUN WAS PURCHASED

(By The Associated Press)  
DENVER, Colo., Dec. 20.—Police investigating the killing of Charles T. Linton, federal reserve bank guard and the subsequent theft of \$200,000 Monday by masked bandits at the government mint today ascertained that the bloody shotgun dropped from the bandit car as it sped away had been purchased about five years ago from a local hardware store. No records of the name of the purchaser was kept by the firm and efforts are being made to trace the purchaser of the gun from a pawn shop by the bandits.

## INDIANA BANK IS HELD UP BY THREE BANDITS YESTERDAY

### Secure \$5,000 but One Believed Mortally Wounded

(By The Associated Press)  
DYER, Ind., Dec. 20.—Three bandits this afternoon held up the First National Bank of Dyer and escaped with \$5,000.

One bandit who was dressed as a woman was shot by John Keilman, a grocer, and apparently mortally wounded.

His companions threw him into their automobile and fled west on the Lincoln Highway.

The bank was robbed a year ago in the same manner by bandits who got away with \$12,500.

William Gettler, a bookkeeper, was alone in the bank at 3 p. m., today when the man in woman's clothes entered and covered him with a revolver, then signaled to the other two, who came in and cleaned out all the money in the vault.

As the trio turned to run to their automobile Gettler stepped on a burglar alarm which had been installed under the counter after the robbery last year. In answer to his signal merchants along the street armed themselves and opened fire. The bandit in woman's clothes fell to the street with blood spurting from a wound in his chest. The other two paused long enough to throw the man's body into the tonneau of their touring car and then sped west, with quickly organized posses in pursuit.

Dyer is ten miles south of Hammond, Ind., near the Illinois line. Word was telephoned Chicago Heights on the Lincoln Highway in an effort to head off the robbers there.

## ALABAMA JUDGE HAS DIFFICULT PROBLEM UP FOR SETTLEMENT

Two Women Claim to Have  
Wedded Samuel M.  
Frank

(By The Associated Press)  
MONTGOMERY, Ala., Dec. 20.—Two women each claiming to be the lawful wife of Samuel M. Frank, a well known Montgomery man who died a few months ago, today carried their claim and complaints to the circuit court of Montgomery county for settlement. Evidence was presented by both tending to show that they had been married to Frank and that they had reared families. The case was in the nature of a bill filed by the Modern Woodmen of America asking the court to issue a decree saying which of the women is the lawful wife of Frank, who left a \$2,000 insurance policy to be paid his wife.

The case was heard before Judge Leon McCord who reserved decision. The two women who maintained suit and now the widows of the wives and now the widows of Frank. Court officers who heard the testimony said the women resembled each other in many respects. Nevada claimed to have been married to Frank "back in the nineties" and has four children, one a girl 24 years old. Nevada says she was married to him several years ago by a Montgomery minister, Dr. Charles A. Stakoley, pastor of the First Baptist church, who was a witness in the case and testified as to her good character.

## Total Net Revenue of State \$17,100,000

(By The Associated Press)  
SPRINGFIELD, Ill., Dec. 20.—The total net revenue to the state next year from the 45 cent tax rate fixed today by the state tax rate board will be \$17,100,000 the board announced. The state school fund will absorb almost half of the total rate of 45 cents on the \$100 valuation. The sum of \$8,400,000 is set aside for schools and represents 21 cents of the 45 cent tax rate, the board announced.

General revenue will get 14 2-3 cents, the University of Illinois 6 2-3 cents and the Illinois waterway 2 2-3 cents.

The total gross revenue to the state from taxes will be \$18,000,000. This is divided as follows: General revenue, \$5,866,667; school fund, \$8,400,000; University of Illinois, \$2,666,666; Illinois waterway, \$1,066,667.

It will cost approximately \$900,000 to collect this tax, which leave the net revenue to the state at \$17,100,000.

While the tax rate of 45 cents is the same as last year it will be applied on a valuation which is \$200,000,000 less than last year, Governor Small stated in announcing the rate. The state tax commission reduced the valuation on farm lands \$100,000,000 and the board of review of Chicago reduced the valuation of property in Chicago \$100,000,000.

## Fatty Arbuckle to Get Into Pictures

(By The Associated Press)  
LOS ANGELES, Cal., Dec. 20.—Roscoe Arbuckle, motion picture comedian has a job in the pictures and he may work at it. Whether he comes back to the place he once occupied is now distinctly up to Arbuckle and to the American people, is the gist of statements given out today by Will Hayes, chief of the motion picture industry; Jesse L. Lasky, of the company that formerly distributed the Arbuckle comedies; Joseph Schenck, producer, who will employ Arbuckle, and the comedian himself.

Mr. Hayes requested the producers last April to withdraw the Arbuckle films and to make no more of them. He took that action after Arbuckle had thrice been tried on a charge of manslaughter arising from the death in San Francisco of Miss Virginia Rappe, an actress. Since then Arbuckle has lived quietly, taking an occasional trip away, but keeping out of the public eye.

Mr. Hayes announced today he saw no reason why Arbuckle should not be permitted to go back to work. He made it plain that he neither sponsored Arbuckle's future nor his films, but that he was simply putting things into limbo so the actor could work out his own future, unhampered by any restrictions from within the industry.

## PROBABLY WILL END DAUGHERTY HEARINGS TODAY

### Committee Expected to Report It Found No Evidence

(By The Associated Press)  
WASHINGTON, Dec. 20.—Public hearings on the impeachment charges brought against Attorney General Daugherty probably will end tomorrow before the house judiciary committee, which is expected to report to the house that it found no evidence on which to base an impeachment proceeding. The report will not be made until after the Christmas holidays.

When the committee adjourned tonight after two long sessions, there remained to be heard only a half dozen witnesses. These are officials of the department of justice who will be questioned concerning allegations in the specifications drawn by Representative Keiler, Republican, Minnesota, which had not been touched upon when Mr. Keiler withdrew from the case.

Chairman Volstead insisted the committee ought to go into all of the charges in an effort to satisfy itself as far as might be possible as to whether there was basis for them.

Before this line of inquiry was opened up Representative Woodruff, Republican, Michigan, laid before the committee evidence which he contended showed "unnecessary delay" by the department of justice in bringing suit against the Wright-Martin Aircraft corporation for the recovery of \$3,601,715 growing out of alleged overpayment of war claims.

Assistant Attorney General Seymour announced that suit for the recovery of this amount soon was to be filed and Colonel Guy D. Goff, former assistant attorney general who has had charge of the case, denied the charge of unnecessary delay.

Most of the remaining time of the hearing today was taken up with an inquiry into the building trade cases growing out of the Lockwood committee investigation in New York. Colonel William Hayward, federal district attorney at New York went into details concerning the various cases, showing which ones had been concluded, which ones were awaiting trial and which ones the government did not act in because interstate commerce was not involved.

Questioned about the release of the Schooner J. B. Young, seized at New York for alleged violation of the prohibition laws, Colonel Hayward disclosed that the order stopping the seizing of "rum ships" outside the three mile limit unless such vessels had established contact with the shore by means of their own boats or crews was issued after "insistent demand" by Secretary Hughes.

## GEORGES CLEMENCEAU ARRIVED IN FRANCE WEDNESDAY FROM U. S.

Said He Brought Back  
Many Happy Remem-  
brances of People

(By The Associated Press)  
PARIS, Dec. 20.—Georges Clemenceau, France's noted wartime premier returned to Paris today from a 39 day trip to the United States. He brought back with him what he termed the happy remembrance that the people of America still love France and also two boxes of grape fruit, which he declared would contribute to his longevity.

Altho he seemed to be in a rarely good natured mood, nevertheless close friends affected to see evidences that his strenuous tour in the United States had left its impression upon him. No official welcome awaited Clemenceau either at Havre where he landed this morning from the Steamer Paris, or in the capital due to his express wish. Numerous friends greeted him at Havre and also in Paris.

The "tiger" when asked concerning his views of what had been accomplished during his tour, took refuge behind the brusque manner he so well knows how to assume when occasion requires. He indicated by a few casual phrases that if there was any import to his visit the American people would get it. "They have got sense enough."

He added that for him this journey was the chapter that ended his career. He said he was moved by the sense of fatigue which sooner or later must terminate his interest in the influences of earthly matters, like a true Frenchman, he was yearning for the quick peace of solitude. Clemenceau repeatedly denied on the trip across the Atlantic that he had given an interview in which he was represented as having objected to French occupation of the Ruhr region of Germany.

## BAILEY COMMISSION MAKES PUBLIC ITS REPORT WEDNESDAY

Says Unlawful Combina-  
tions Responsible for  
High Prices

(By The Associated Press)  
CHICAGO, Dec. 20.—Unlawful combinations and agreements are largely responsible for high building prices in the opinion of members of the Illinois building investigation commission known as the Bailey commission which tonight made public its report on conditions in the building trades which will be submitted to Governor Small tomorrow.

The building industry in Chicago, relieved of many artificial burdens is responsible to natural laws and experiencing the greatest strides in all its history the report stated.

"The existing laws of Illinois are inadequate to cope with price-fixing organizations" according to the report. It continues:

"Numerous cunningly devised schemes have been used to restrain trade and fix prices. Cost systems are installed so that uniform prices are bound to result. Production is limited under allotment schemes and the supply thus brought under control. Territory and customers are divided and the division respected. There is evidence of pooling arrangements between members of associations upon which dividends are received. The investigation disclosed that union labor was betrayed, disgraced and brought into thorough disrepute by many criminal agents."

"Graft, which according to the best estimates ran into millions of dollars every year and imposed on builders by business agents."

## DISCUSS CONTROL OF STRAITS IN BETTER SPIRIT

### Indications Point to Some Sort of Agree- ment in Few Days

(By The Associated Press)  
LAUSANNE, Dec. 20.—Both Turkish and allied delegations relaxed in their attitude today and discussed control of the straits in such a conciliatory spirit that there is every indication some sort of straits convention may be signed in a few days.

The note of the United States declaring it does not regard an international commission as necessary undoubtedly bore fruit as Lord Curzon gave careful consideration to that. Pasha's plea that Turkey would consider international interference with Turkey's affairs as "worse than death."

An agreement likely will be reached exempting the military zone along the straits from control by the proposed commission which will have jurisdiction only over navigation of the straits leaving even the pilotage to the Turks.

Ismet Pasha also pleaded for further guarantees for the safety of Constantinople than those which would be afforded by the league of nations and proposed additional guarantees similar to those granted to the Aegean Islands. He insisted that Turkey must have further assurances from the important powers individually and collectively that her territory will not be violated. He accepted in principle the fundamental provisions for control of the straits outlined by the allies but pleaded that Turkey must have her sovereign rights thoroughly safeguarded.

**Expresses Satisfaction**  
Lord Curzon, M. Barere, Baron Hayashi, M. Spalaikovich and other speakers expressed great satisfaction over Turkey's conciliatory attitude.

Baron Hayashi said he was especially gratified to see the conference which had almost reached the stage of ultimatums, settle down into such calm and reasonable consideration of the straits problems.

Lord Curzon, after hearing Ismet's statement of the Turkish position said that Ismet's acceptance of the general principles of free passage as outlined by the allies now made it possible to discuss details of the practical application of those principles. He expressed sympathy with Ismet's anxiety lest Turkey's sovereignty should be affected by the proposed treaty but pointed out in a measure every power surrendered some of its sovereign rights when it negotiated treaties. He mentioned the Great Lakes treaty between Canada and the United States as one which in a sense limited the sovereignty of the two governments, but is in no sense an offense against the sovereignty of either and contended that the proposed regulation of the straits was the same.

As it is clear that the United States will accept no seat in a straits control commission, regardless of how much the powers of this proposed international body already obtained the attention of the American delegation were asked tonight whether the United States would in any way be bound to respect the regulations imposed by this body and if the United States would negotiate a treaty immediately with Turkey. To this Ambassador Child made no answer.

## WAR OF WORDS OVER TWO DOLLAR FEE

(By The Associated Press)  
SPRINGFIELD, Ill., Dec. 20.—The war of words between the federal government and the city of Springfield, over the city's authority to impose its building regulations on contractors building a \$10,000 addition to the Springfield postoffice was apparently quieted tonight. The city, according to the opinion of United States District Attorney Thomas Williamson, has pulled in its horns.

The controversy over nothing more than a two dollar building fee has already obtained the attention of the department of justice in Washington.

The trouble started several weeks ago when Building Inspector Morgan of Springfield threatened to arrest the contractor and to call his workers off the job, unless the permit was obtained. The contractor paid the fee under protest and reported the matter to the district attorney.

The district attorney promptly addressed a rebuke to Commissioner Reece of the department of public safety, calling attention to the "unseemly conduct of Inspector Morgan." The affair was then reported to Washington and the reply upheld the United States official opinion that the federal property is not within the corporate limits of the city and is not subject to either city or state control.

WE'RE born and go on growing,  
Through childhood's seasons glowing,  
And the world rolls on.  
We frisk, as lads and lasses,  
Till adolescence passes,  
And the world rolls on.  
Oh, the world rolls on,  
From dawn to dark and from dark to dawn.  
We're dull or sad, or merry,  
We work—when necessary,  
And the world rolls on.  
We have our time of dreaming,  
And planning and of scheming,  
And the world rolls on;  
We grow a little older,  
Our blood runs slower, colder,  
And the world rolls on.  
Yes, the world rolls on,  
Night and day till the years are gone,  
We boast of our successes  
Or wall at our distresses,  
And the world rolls on.  
AND yet there's fun in striving,  
In toiling and contriving,  
While the world rolls on;  
We have our little flurry,  
Then laugh, "Well, we should worry,  
Let the world roll on!"  
Let the world roll on,  
We can't argue either pro or con,  
We'll live life till it's over,  
And then, beneath the clover,  
Let the world roll on!

## MANY ACTIVITIES FOR FARM BUREAUS

Suggestive Program of Work Indicates Large Opportunities For Bureau Service.

**THE 1922 FOOTBALL SEASON**  
(FROM THE ILLINOIS ADVANCE)

THE 1922 I. S. D. FOOTBALL SQUAD

A review of the Tigers' 1922 football season reflects brightly against the dull, dark background of our athletics for several years past. It surpassed our first football season in 1921 by far. It was the Tigers' second year in football and the result of the revival of I. S. D. athletics, which had lain dormant since 1908.

The Tigers faced a very tough schedule, playing nine games, compared with only two games last year. The team was built up from practically nothing but green material, none of the candidates knowing how to play football.

This season the Tigers are credited with five victories and four games were lost. The Tigers scored 169 points against 93 points for their opponents.

We started the season with an inexperienced team, only six regulars on. Despite this the Tigers made marked progress in the scientific development of play. Soon they showed real class in their foot ball. One of the local newspapers said the Tigers were making rapid strides towards high school standards and could battle with any of the best high school teams in Illinois. They did—battled with some of the best such as Champaign and Decatur high schools and the Western Military Academy.

The Tigers won the admiration

of all for their clean playing spirit and true sportsmanship. They also displayed a wonderful fighting spirit against more experienced and heavier teams.

After seeing the big game staged between the University of Illinois and Northwestern University, the Tigers acclaimed themselves as "Little Fighting Illini."

The I. S. D. Athletic Association is endeavoring to observe the rules of eligibility and competition adopted by the Illinois High School Athletic Association, the we are not members of the organization, in order to enjoy the privilege of playing high school teams. All the players on the squad are under 20 years of age. The average weight of the first team is 144 pounds.

There was one sensational development on the Tigers' team. They had a new quarterback who had never played in a game before. He had lots of drilling before he became an ideal player. As he has two years more of school ahead of him he may become one of the mainstays of the Tigers.

The Tigers' football season is worthy of record. For the first two weeks stress was placed on the fundamentals of the game. On Sept. 30, the season opened with the first game on Illini field since 1908 Carrollton High school was the Tigers' first op-

ponents. Yet the Tigers fought appeared more experienced than the Tigers, the latter fought hard and won by the score of 12 to 0.

The strongest and heaviest team the Tigers played against was Champaign High school. These players averaged 164 pounds, at the Tigers fought fiercely and cleanly, every minute. The final score was 36 to 0. The Champaign team ran up much larger scores against other teams. For two or three years they have held the title of state champions. The fans of Champaign highly commended the clean playing of the Tigers. Only one penalty was imposed upon the Tigers for offside playing. The officials of the game were from the University of Illinois.

The newest feature in connection with our athletics was the "Home Coming Day," when the Missouri School for the Deaf played the Tigers here. A large crowd was present. Such a football game between the two teams of deaf players was staged for the first time in this city. The result of the game upset even the fondest hopes of the Tiger enthusiasts, as the Tigers walloped the Missouri lads by a much larger score than expected.

The Tigers will lose three good players thru graduation in June. They are Louis Massinkoff, William Johnson and Walter Man-

nen. They deserve special mention for their good performance. Louis Massinkoff is one of the best half backs ever seen on the gridiron in Jacksonville, as the local papers stated. His sensational ability lies in his end running, plunging thru the line and kicking. If the remainder of the football squad all should return next fall, the Tigers will have a better and more powerful team.

Excellent prospects are in store for the Tigers' 1923 season. Les Crabbe, who played brilliantly as fullback, was elected captain of the 1923 Tigers or "Little Fighting Illini."

Here is the record of the 1922 football season:

Sept. 30—I. S. D., 12; Carrollton H. S., 0.  
Oct. 7—I. S. D., 0; Decatur H. S., 7.  
Oct. 14—I. S. D., 7; W. M. Academy, 25.  
Oct. 21—I. S. D., 38; Auburn H. S., 0.  
Oct. 28—I. S. D., 6; Roodhouse H. S., 12.  
Nov. 4—I. S. D., 0; Champaign H. S., 36.  
Nov. 17—I. S. D., 66; M. S. D., 6.  
Nov. 24—I. S. D., 20; Routh College, 0.  
Nov. 30—I. S. D., 19; Girard H. S., 6.  
Total points:  
I. S. D., 168; Opponents, 93.

United States Lawrence Y. Sherman at the instigation of the American Legion contends that the bonus is a "gift" which is in violation of the constitutional provision forbidding the state to pay, assume, or become responsible for the debts or in any manner, give, loan or extend credit to any person or corporation.

The issuance of \$55,000,000 in bonds, as provided by the bonus law, would be an extension of the state's credit for the benefit of individuals who served in the world war it is contended.

The petition asks for an injunction against the service recognition board, the state auditor and the state treasurer to restrain the issuance of the bonus bonds. It was brought in the name of Dr. Elmer E. Hagler, president of the Springfield Chamber of Commerce who lost a son in the war.

Many Technical Objections are raised to the law on the ground that the bonus referendum did not pass by a majority vote of the people, that the secretary of state failed to publish the act once each week for three months before the election, that the propositions levying the tax have been submitted to the voters separately from that authorizing the debt, instead of on the same ballot and that the title of the legislative bill is defective.

The answer of the defendants who will be represented by the attorney general must be filed not later than Thursday, January 4, the January term of the circuit court opening January 2. Assistant Attorney General A. D. Rodenberg, who probably will be assigned to defend the action stated today the answer would be the usual general denial of the allegations, with additional specific answers to each point raised. The defense argument, he said, would be modeled in part on bonus cases decided in other states.

Members of the service recognition board, including Governor Small, Adjutant General Black and State Treasurer Miller and also State Auditor Andrew Russell who is not a member of the board were served with summons in the case this afternoon.

Among American Legion officials the belief was expressed that while Mr. Sherman had presented an able document, attacking the bonus law from every conceivable angle it would nevertheless stand every legal test.

**TWO TEAMS ON WAY TO COAST**

CHICAGO, Dec. 20.—Two big eastern football teams on the way to California for holiday games spent today here, departing tonight for the coast. The University of West Virginia squad 28 in number, in charge of Coach Spears, arrived on the same train with Coach Bezek's Penn State team which is to play the University of Southern California at Pasadena January 1. The West Virginia eleven will battle Gonzaga at Los Angeles on Christmas Day. Coach Spears said the Virginians were in the best of shape after the eastern season and the players looked it.

Coach Spears said there was a difference in the tactics of the three eastern schools—Pittsburgh, West Virginia and Penn State—which are to play on the coast. Pittsburgh will play Stanford, Dec. 30.

"We use a line shift and Pittsburgh shifts only her backs," Spears said. "Then, there is a difference in the way we go after forward passes. The eastern teams feel they are fairly well fortified against anything the far western eleven can spring."

The Penn State squad, composed of 22 players, traveled west in a special car which will be dropped off at Williams, Ariz., Friday night. The party will make a tour of the Grand Canyon on Saturday.

The Mountaineers are used both to frosty weather and to warm and do not believe the heat of the west will slow them up.

Ivory sets in cases may be had consisting of only two pieces—a comb and a brush. These are the most favored articles to start with in collecting ivory. The price is very moderate—as low as \$3.00 per set.

Then there are three, four, five and six set piece sets of various chaste, attractive designs. Sets may be arranged to your order, and to any degree of elaborateness desired—prices range from \$3.00 to \$50.00.

White ivory sets in leatherette covered, silk-lined cases strongly appeal to every woman. The spotlessly white articles are set off in lovely contrast with the silken lining of the case, and the richness of the gift is enhanced in the eyes of the recipient.

## The Spirit of Service

As the old year passes into history and men take stock of their achievements and of their weaknesses, there is stressed that spirit of service which is the soul of business.

It is the Christmas spirit materialized, the spirit of Kindness, Justice, Equity and Fair Dealing, the spirit which gives body to the Golden Rule.

The spirit of service is ever present in the policies of the Standard Oil Company (Indiana) permeating every phase of its activities.

The spirit of service is a principle which radiates naturally from the management and through every fibre and unit of the organization. Such a spirit is essential in a big business if the work it is designed to do be comprehensive in its scope.

It provides proper compensation for men and women who have grown old in the service.

It provides pleasant working conditions for employees.

It embraces a plan whereby employees may become partners in the business, insuring a comfortable feeling of independence, thereby supplanting worry with peace of mind.

It provides a channel through which the worker in the humblest position may bring his grievance, if he has one, to the attention of the management and be sure of consideration.

These four manifestations of the Standard Oil spirit of service reflect themselves directly in developing contented employees, who work with an enthusiasm impossible to those who labor under the lash.

The material benefits of this daily application of the Christmas spirit are mirrored to a superlative degree in the superior service which the Standard Oil Company (Indiana) through its harmonious, happy, contented family of 27,000 employees is able to render to 30 million people in 10 Middle-Western States.

It is this spirit of service animating the entire organization which has enabled the Directors to render so praiseworthy an accounting of their stewardship to the 26,768 stockholders, not one of whom owns as much as 10 per cent of the total.

**LETTERS WILL TELL ABOUT SMYRNA'S NEED**

Local Committee Will Solicit Funds Only Thru Mail and Newspaper Publicity.

In seeking local aid for the Smyrna relief fund, there will be no special solicitation, according to a statement made yesterday by Dr. Carl E. Black, who is chairman of the committee. It is the purpose of the committee to send out some appeals thru the mail and still further appeal will be made by the publication of a pledge card in the newspapers.

The thought of the Illinois committee and the local workers is that at this season of the year people will be likely to give special heed to the call of Smyrna's starving people and be willing to use part of their Christmas funds in this good work.

Herewith is the copy of a letter sent out recently by Harry Wheeler, Charles G. Dawes and Julius Rosenwald of the committee. The national chairman for this work is Will H. Hayes and Mr. Wheeler is the Illinois chairman.

Dear Friend:  
It would be superfluous for us to say much about the accompanying pamphlet; it tells its own tragic story.

We beg you to read the pamphlet and Edgar Guest's poem thoughtfully, and then visualize the contrast between your peace and prosperity, and the utter anguish and destitution of these martyred people.

If you will do this, we know that your conscience will do the rest. We are yours, in the name of humanity.

### Veterans Perform Like Youngsters

Nine Studebaker Big-Six Touring Cars, with a total of one million miles to their credit, recently participated in an economy-reliability contest conducted by the Studebaker dealer at Los Angeles.

All came through with perfect scores except two—one had dirt in the gasoline pipe, the other required a slight adjustment of brakes.

This is the most convincing demonstration of motor car reliability of which we know.

The run was from Los Angeles to Big Bear Valley and return—239 miles—of which 90 were on steep, rough mountain roads that necessitated stamina in every part. Yet the Big Sixes reached every checking station on time.

One of these old veterans has piled up the amazing total of 351,000 miles of practically uninterrupted service of two trips daily

between Los Angeles and Santa Barbara. Another has 250,000 miles to its credit, and so on.

No such group of cars was ever before assembled for such a strenuous proof of endurance. Their entry in competition, over one of the most difficult of Southern California's mountain roads, was an expression of confidence of the owners in Studebaker everlasting goodness.

The dependability of the Big-Six Touring Car, its low cost of maintenance, its comfort, fine appearance and complete equipment make it the most desirable seven-passenger car on the market. Its price is way below cars that do not even approach it in value.

The name Studebaker is your assurance of value and satisfaction.

## Market Report

By The Associated Press

## HEAVY SELLING

## CAUSES BREAK

CHICAGO, Dec. 20.—Heavy  
selling to realize profits led to  
sharp breaks in the value of  
wheat, corn and oats today, after  
some new high price records for  
the season had been touched.

It was asserted in some quar-  
ters that the Liverpool market  
had been purposely bid up to fur-  
nish such a chance. However, this  
might be, selling here quickly  
broadened and gains which had  
been scored at the opening were  
much more than wiped out the  
market at one time showing a fall  
of as much as 3½¢ a bushel.

Export business which develop-  
ed during the downward swing  
of wheat market led to price  
rallies in the last half of the day.  
A report that Italy had removed  
the import duty on flour was also  
of some assistance to bulls. Legis-  
lation which might help to en-  
hance values appeared to be mov-  
ing slowly and it was only with  
aggressive support from large  
houses that the market was up-  
held in the final dealings.

Corn and oats as wheat were  
subjected to much greater selling  
pressure than has appeared for  
some time. In addition to liberal  
receipts of corn here free offer-  
ings to arrive had a depressing ef-  
fect and both corn and oats  
showed less rallying power than  
wheat also export business in  
corn was of some effect.

Provisions were firmer early  
in line with hog values but re-  
ceded later when the hog market  
lost its gains.

### WILL ARGUE VENUE CHANGE MOTION JAN. 3

Zachary Case Called Wednesday In Circuit Court—Defendant Entered Plea of Not Guilty.

In the circuit court yesterday the case of Samuel T. Zachary, charged with the murder of Luther Crawford, was called on for the court calendar. Attorneys for Zachary immediately stated that a petition had been filed asking for a change of venue.

Judge Smith said that the mere filing of a petition by the clerk was not sufficient and that the matter had not been called to the attention of the court. The state's attorney indicated that the prosecution was ready for trial and the court asked if the defendant was ready to plead.

Attorneys for the defense objected to any plea being entered prior to action on the motion for a change of venue. The court, however, overruled this objection and the defendant was required to plead. His attorneys immediately entered a plea of not guilty. Motion was also made to quash the indictment and this was overruled.

Judge Smith then considered the petition for change of venue and set Wednesday, Jan. 3, as the date for arguing this matter. This time was given the defense for the filing of affidavits in support of the contention that Mr. Zachary cannot receive a fair and impartial trial in Morgan county. The state's attorney indicated that the January 3 date was satisfactory and that the state will be ready at that time to resist the application for a venue change.

### CIRCUIT COURT NEWS

Howard Berry, who was indicted on a charge of highway robbery, entered a plea of guilty and was given an indeterminate sentence at Pontiac by Judge Smith. Under the law he must serve at least ten years for this offense.

Judge Smith heard the evidence in the suit of August Walters against Frank and Thomas Drury, a suit resulting from an automobile collision. The court awarded the defendant damages in the sum of \$140.

### FACTS GIVEN ABOUT NEAR EAST FUND

Local Subscriptions From 233 People Total \$1,427.04—No Personal Solicitation.

At least two hundred and thirty-eight Jacksonville citizens are sharing in a happy Christmas through their generous contributions to the support of the orphans of the Near East Relief. Rev. W. H. Marbach, local chairman of the Near East Relief reports a total of \$1,427.04 contributed by seven of the churches of Jacksonville. Some of the churches noted have not completed their offerings, while come to those not mentioned will make a contribution soon.

Westminster Presbyterian Church with forty subscribers raised \$341.50, with subscriptions ranging from \$60.00 to one dollar. It should be noted that five dollars a month, or \$60.00 per year feeds, clothes, educates and shelters an orphan.

Fifty-three persons at Grace Church subscribed \$340.17.

Though no special Near East Relief speaker addressed the Christian Church, and in spite of five or six other financial appeals which have made recently over \$253.95 was contributed last Sunday in response to Rev. W. H. Marbach's invitation. Fifty-one persons subscribed this sum.

At State street Church, where the Sunday School contributed \$40.00, the total subscription amounted to \$354.00, subscribed by forty-two persons not including the number who gave thru the Sunday School.

Centenary Methodist Church with fifteen persons contributing gave \$63.50, while Northminster Church with fifteen subscribers gave \$38.15. Brooklyn M. E. with eight subscribers contributed \$12.75. Mt. Emory Baptist with eight subscribers gave \$6.20.

The average subscription amounted to \$6.00 per subscriber, an amount which when given by a more representative and greater number of Jacksonville citizens would be of material assistance in meeting the crying need of the 110,000 orphans within N. E. R. orphanage, the 200,000 outside the orphanage, and the 1,000,000 or more homeless refugees from Smyrna and Thrace.

For persons or organizations desiring to help another child to leave the outside doorstep and go into the orphanage where there is life and hope, there is still a chance to do. Make checks payable to Near East Relief, E. E. Crabtree, Treasurer, and give or send them to E. E. Crabtree, Jacksonville, Ill.

### JUNIOR PROM WAS WELL ATTENDED

Seventy-Five Couples Attended Annual Affair Last Night.

One of the most delightful and important events of the holiday season in Jacksonville was the Junior Prom held last evening in the Illinois College gymnasium. About seventy-five couples were guests at the affair and the class of 1924 had spared neither time nor money to make it one of the most impressive in the history of the college.

The general scheme of decoration for the affair was suggestive of the days of Pierrette and Pierrot and their gay companions. The color scheme of black and white was carried out by the use of crepe paper, and artistic little dancing figures on black and white backgrounds. A false ceiling of many gay colored balloons and the use of the black and white figures on the wall gave the gymnasium an entirely new and festive appearance. Attractive dance programs in blue and white were the favors for each guest.

In every way the prom was one of the most artistic and delightful affairs ever given at the college.

The hours of dancing were from nine o'clock until two and music for the occasion was furnished by an orchestra from the University of Illinois. The grand march was held at nine o'clock and was led by Robert Brown, chairman of the prom committee, and Miss Vivian Yellidell. There was an intermission at eleven thirty o'clock and an attractive supper was served by the management of The Tea Tray.

Among the guests at the affair were a large number of out of town alumni, as well as many Jacksonville people who were formerly students at the college. Those who were asked to be patrons at the function were President and Mrs. C. H. Rammelkamp, Mr. and Mrs. J. G. Ames, Mr. and Mrs. R. F. Swift, Mr. and Mrs. Felix Farrell, Mr. and Mrs. Francis Rantz, Dr. and Mrs. Garm Norbury, Dr. and Mrs. Ellsworth Black, Miss Ann Bellatti, Walter Bellatti, Mr. and Mrs. Chester Hemphill, Mr. and Mrs. Robert Capps, and Mr. and Mrs. W. T. Wilson.

Robert Brown was the chairman of the prom committee and those who acted on the committee with him were Miss Levon Shunk, Miss Beatrice Criddle, Lester Cornick, Miss Betty Palmer and Emert Witaschek.
